Restricted Speed

- GCOR 6.27 Movement at Restricted Speed
 - When required to move at restricted speed, movement must be made at a speed that allows stopping within half the range of vision short of:
 - Train
 - Engine
 - Railroad Car
 - Men or equipment fouling the track
 - Stop Signal
 - Derail or switch lined improperly
 - When a train or engine is required to move at restricted speed, the crew must keep a lookout for broken rail and not exceed 20 MPH.
 - Comply with these requirements until the leading wheels reach a point where movement at restricted speed is no longer required.
